Topic: Write how the modern gadgets
are influencing human relations.

Aim: To show that how the modern
gadgets are influencing human
relations.

No. of project: Formative Assessment - 2

Reference:

Write how the modern gadgets are influencing human relations.

Modern gadgets have influenced a lot on human relations. Before the invention of any modern gadgets, life was a simple and calm. People used to talk with each other, used to pay visits to their friends, neighbours

and relatives. They used to talk, spend quality time with their family and friends. But, now in modern world, it has become a disaster when it comes to human relations. People have stopped talking to each other. People are so busy in their lives that they give no time for friends, families and

relatives - People like to chat on facebook but not verbally with their friends. They

ignore them in real life but chat a lot on virtual and social networking websites. Even small kids and teenagers are not spared from the evils of modern technology. Kids stick to TVs and PSPs and teenagers stick to their mobiles and social networking sites. Technical and electronic gadgets occupy a major place in our day-to-day lives.

Though these gadgets have their own advantages; they also have negative impact on human relationships. They play a vital role in our lives today. Most of us are addicted to them. By using technical gadgets like Mobile, televisions and computers, we are not even spending enough time to sleep.

We are creating new

diseases by using these gadgets like brain tumor, etc... children used to obey their parents. They used to meet their friends and physical activity of children was also good. But after this technical devices came into usage no one is talking to each other. Everyone are such busy in their own life. Childrens are not obeying their parents and moral values and human relations are vanishing day by day. Radiation is increasing. New diseases are arising. Children are not playing and becoming obese day by day.

Every invention has its own

advantages and disadvantages. We are thinking that our society is improved after the discovery of internet. But we are wrong. Humans were very creative and inventive before the invention of internet. Loss of creativity is taking place as every single idea

base of bad ideas. The evil and creative ideas terrorists get are mostly from the internet. As science and technologies have progressed with the inventions of new gadgets. This surely has adversely effected their social relation with their family. The relationship between parents and children has been affected the most, as parents are either working and children are really busy with school work.

Even when parents get time on weekends the children are either busy in chatting or logging themselves in social networking sites. It is true that nowadays technology rules the world. Undoubtedly, human interaction has been influenced through introduction of new technologies devices.

Conclusion:

By doing this

observation I have

improved my writing skills and

also got to know much more about

-the effects of modern gadgets on human

relations & also realised the importance

of relationships. We should take care

that the use of such gadgets should

be minimized so that the problems

created by these gadgets should not

occur in our daily life. If these

gadgets are used in a proper way

they makes our life easier & smart.

I believe that due to these gadgets

we are weakening our relationships.

so, we should make sure about

the use of these gadgets.

Classwork

Classwork.

I. Answer the following questions.

1

Write a critical appreciation of the poem, 'Another Woman' highlighting the social issues it deals with.

(Ans.)

The poem Another Woman by Imtiaz Dharker is a fascinating study in the crushing indictment of the suppressive prescriptions against the freedom, dignity and respectful living of women. In this poem the poetess pathetically picturises, the condition of a woman in her mother-in-law's house. The life is a struggle for her because in the house to which 'she had been sent to' she had not any dignity and respect and 'the man she had been bound to' had not any bonding of love for her. 'The future she had been born into' is dark, gloomy and uncertain. The poetess skillfully represented the attitude of one woman (mother-in-law) to other of the same family as she depicts it through the dark looks of mother-in-law. The poetess uses the words 'usual' and 'as usual' to describe that their torturing the woman is regular and continuous. The single word 'crouched' used by the poetess not only desc

8

her humility and her submissiveness but also her derogatory condition in that house. The cuddling of Harnes on the old pot's cheek and personification she used in this context symbolises the immolation of herself in the flames.

The stanza ... "So when the kerosene was thrown" arouses sympathy and pity and agony in the hearts of the readers. The last line of the poem "We shield our faces from the heat" makes us feel ashamed of ourselves and we get a feeling that because of our apathy and unconcerned attitude towards other's feelings she burnt herself. It cuts wound in our heart. It reminds us of our responsibility towards society.

2

Your school is taking you to remort village near by to learn about the ways of farming and the life of farmers. As the head boy of the school prepare a notice to be put up on the notice board.

(Ans.)

SHANTINI KETAN SCHOOL

Notice

15th march 2021

field trip to a near by village.

Dear Friends,

Our school is organising a trip to jangoan, a near by village. There, we are going to interview farmers about the ways of farming and their lives. Please note down the following details.

classes - VIII to X Date - 19th March

Places - Jangoan Time - 8am to 6pm.

NOTE:

1. We need to write a project about our visit after coming back to school. So bring your note book & pen.
2. Get your breakfast & water bottel
3. lunch is provided.

Anil Kumar
Head boy.

Buying things by easy instalments keeps you permanently in debt. Write down your points in favour / against the proposition.

Afterwards, work in pairs and have a debate in the class.

a) Points in favour of the proposition :

Buying things by easy instalments keeps the person permanently in debt. The person ends up paying more than the actual price. Even though they pay part of the whole amount every month, it becomes difficult to pay. They again take money on loan to pay these instalments. They face financial crisis. So people say buying things by easy instalments keeps you permanently in debt.

b) Points against the proposition :

Easy instalment is the best and easiest way to purchase expensive items. It is a great opportunity when people can choose the amount they would pay every month. This eases the pressure of paying the price of the item in one large payment. Instalments are definitely a first choice for people who do not have the means to pay for items in one shot.

4

-) Your locality has been facing severe water shortage problem during summer. Write an article to the editor of your local newspaper on the increasing concerns of water scarcity around the world.

WATER SCARCITY—AN ISSUE OF GLOBAL CONCERN

As we all know, water is one of the most basic and essential needs of our life. Lack of regular water supply can greatly disrupt daily life.

In order to cope up with the ever-rising demand, water distribution networks have unfortunately started relying on unsafe water sources. This has adversely affected the health of people and resulted in water-borne diseases like cholera, dysentery, diarrhea, and typhoid. Stagnation of water not only leads to contamination, but also increases the risk of spreading diseases caused by the breeding mosquitoes.

Surprisingly, water scarcity is also prevalent in areas that enjoy plenty of rainfall as it is not properly channelized and conserved for future use. It is high time that we adopt methods like rainwater harvesting to address this issue.

All know the usage of plastic leads to unhealthy lives. Plastic Free Tuesdays is the global campaign. Your school also takes an oath not to use plastic anywhere at school, at home or outside. On all Tuesdays prepare a poster to be put up on your school notice board.

NO PLASTIC!! TRY IT TODAY!

Plastic Free Tuesday – No Plastic on Tuesday

ONE DAY A WEEK – NO PLASTIC

www.plasticfreetuesday.com

**Plastic injures health, so stop using
plastic to lead healthy lives.**

*Go around in your neighbourhood and spread
the message. Request everyone not to use plastic
atleast for one day in a week.*

Subject: English

Topic: Collect the information about
the people who are involved
in making a film.

No. of project: Formative Assessment - 2
Introduction

Project Work.

- Collect the information about the people who are involved in making a film.

Name of the film: 3 Idiots.

S. No.	Area	Name of the person	Role
1.	Direction	Rajkumar Hirani	directs the making of the film.
2.	Production	Virdhu Virod Chopra	plan & coordinate various aspects of film production.
3.	Story / Script	Abhijat Joshi & Rajkumar Hirani	translated the story into an effective screenplay.
4.	Music	Shantanu Moitra	Compose melodious music.
5.	Cinematography	C.K. Muralidharan	responsible for making artistic & technical decisions related to the image.
6.	Costume	Manish Malhotra & Sheera Parekh	create the look of each character.

7.	Makeup	Vikram Bokwad	plans makeup designs for all cast
8.	Publicity	Vindhya Vinod Chopra	Create awareness of the film.
9.	Acting	Aamir Khan, R. Madhavan, Sharmila Joshi, Kareena Kapoor, Boman Irani & Omni Vaidya.	portrays a character in a performance

16

. Write a report about the people from the above list & their contribution for the success of the movie by giving relevant examples to substantiate your opinion. Present the report to the class.

The director is responsible for overseeing the creative aspects of a film. Though the director holds a great deal of power, he / she is ultimately subordinate to the film's producer.

A film's producer creates the conditions for film making. He is involved throughout all phases of the film making process from development to completion of a project.

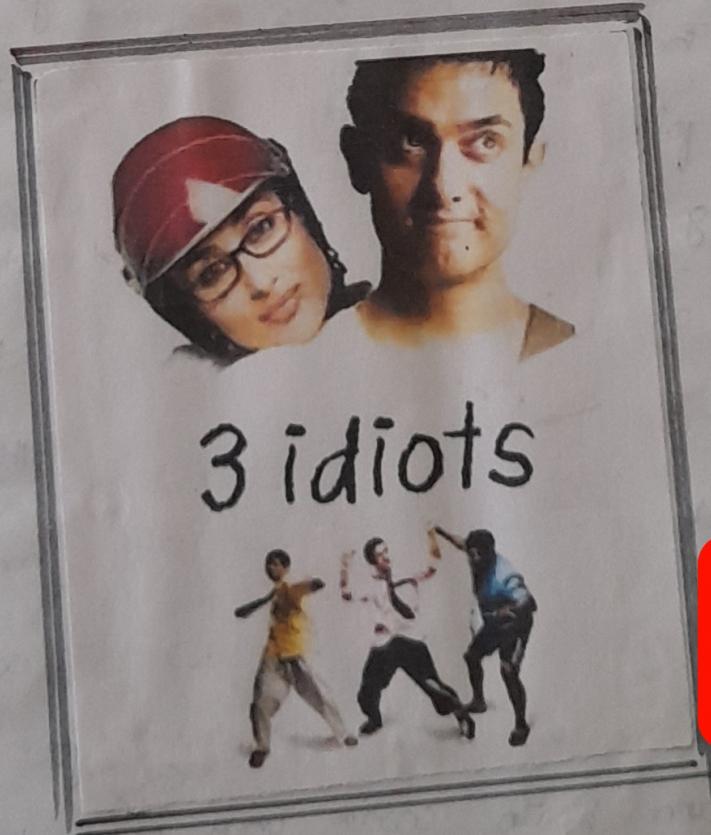

Script writer translates the story into an effective screenplay. His / Her role in the overall film making process is absolutely vital, because it is in the screenplay that the film is first born.
One cannot imagine an Indian film without music and songs. Music forms an integral part of a film.

The cinematographer is responsible for capturing the film image as required by the script, under supervision of the director.

A costume designer creates the look of each character by designing clothes & accessories. The actors will wear in performance.

The makeup artists are responsible for planning makeup designs for all leading & supporting cast.

~~Publicity is gaining public awareness for film~~
The actors are the heart of the film & without them the film is nothing. They play a crucial role in making a film.

Conclusion:-

By writing this project, I have increased my knowledge about the people who are involved in making a film & this contribution makes the movie successful. The credit of successful movies not only goes to actors, directors and producer but also the whole team involved in making a film. 3 Idiots taught us that whatever your problem in life is... just say, "Aal izz well".... this may not solve your problems but it will give the courage to face it.. The second is, 'Chase excellence & success will follow you'. The third, "Life is not about getting marks, grades but chasing your dreams".

There are some golden rules, which 3 Idiots taught you in an entertaining way. This film also taught us that there's much more to life than just marks on your report card. It was inspiring because it urged you to dare to dream & to carve your own destiny.

"AAL IZZ WELL" ..
